01:12:26   Thank you again for the land acknowledgement.

01:13:00   *PLP -   Standards of Engagement:
(https://www.mckensiemack.com/agreements) We agree to struggle against
racism, sizeism, transphobia, classism, sexism, ableism, and the way we
internalize myths and misinformation about our own identities and the
identities of other people. We know that no space can be completely "safe"
and we agree to work together towards harm reduction, centering those most
affected by injustice in the room. We agree to sit with the discomfort that
comes with having conversations about race, gender, identity, etc… we agree
to try our best not to shame ourselves for the vulnerability that these kinds
of conversations require. We are to value the viewpoints of other people
that do not challenge or conflict with our right to exist. We agree that
it's okay to have feelings. It's okay to feel uncomfortable when discussing
complex topics about accountability, equity, relationships, justice, and
care.

02:03:39   *PLP - Thank you WebJunction!

02:03:50   We use Teams at work and Panopto and Zoom at School

02:04:04   For PC browsers you can install Firefox with a Proxy add-on. So Script add on can help as well, but you have to toggle it a lot and patrons might find it a hassle.

02:51:49   Ecosystem of the community* Since libraries have long been considered a "nerdy" place to visit. The uptick in positivity surrounding nerd culture could be played upon to improve positive library perception.

03:47:23   Any book recs to get a better understanding of how the 1918 pandemic affected social interections?

03:47:37   These policies are de rigueurer.

03:48:49   Vaccine is not a cure all. Not everyone is going to get it, if/when available.

03:48:59   In Taiwan, there is still a lot of concern around flu symptoms because of SARS outbreak from 2002-2004.

03:49:20   We are also pretty lucky that SARS didn't result in having to do this type of quarantining.

03:50:12   I enjoyed Pale Rider by Laura Spinney

03:50:24   Libraries there have book and equipment sterilizers that patrons can use. But not sure how effective they are. In Taiwan. It was because of SARS

03:52:48   Our library system in VA decided to quarantine for 1 week. Storage is an issue at all the branches.

03:54:46   Public Health departments have been using the following to establish safe public spaces -->
CDC Guidance for Cleaning/Disinfecting Facilities:

CDC Re-Opening Guidelines:

* I'm a public health analyst working under a CDC-funded health department.

03:55:24   To answer the first part of the question:

It will take quite a bit of time before we develop a vaccine (especially as the virus is quickly evolving into different strains). It will also take some time before we establish a strategic plan to provide an effective vaccine to the public. It's important to note that not everyone will have easy access when it becomes available.

04:29:13   I just realized I could change the size of captions...

04:33:26   *PLP – We are using Webcaptioner, which is free but limited in capacity.

04:34:04   Will captions for this presentation appear in the linked recording? I want some of our deaf employees to be able to watch it!

04:34:57   *PLP – [To commenter at 04:34:04] Yes, although we had some errors. Youtube also allows for selecting closed captions on recordings.

04:35:29   *PLP - And we will try to save a transcript for what we have today.

04:36:00   *PLP - Google slides caption is showing on top!

04:42:47   I use Camtasia software for recording videos, and that allows typing in or uploading closed captions. And a lot of video editing tools.

04:43:21   *PLP - Thanks for sharing that!

04:43:35   In an in person event, I once saw a librarian ask if everyone could see the red laser pointer and offered a yardstick or green laser pointer as an alternative. I'm assuming this is for folks who are colorblind?

04:44:21   Camtasia isn't really for live events, but it's great for editing pre-recorded videos and recording screenshares.

04:45:24   Weava is useful for finding, organizing, and recalling information.

04:45:36   Thank you for recommending compensation!
